✓ CHOOSE A FIT PACK

Whilst a personal mask fitting is still highly recommended, this is not always possible, convenient or practical. During these difficult times, travel restrictions and personal safety risks are real concerns for our patients, who are now preferring to shop on-line. However, we do understand that selecting the wrong sized mask can be a costly and frustrating mistake.

For these reasons, we have expanded our range of Masks and made it easier for you to identify "Fit Packs" which include all available cushion sizes.
